

**The Worship of God  
Sunday, July 25, 2021**

***Faith and knowledge of the Bible are dead without action...  
Tim Hansel said: "All of our theology must eventually become  
biography." He reminds us that the story of the Bible, and the  
call to play our part, must become part of our story in how we are  
living and serving. As we prepare for worship, how can your faith  
become a living expression of what God has done for us in Jesus  
Christ?***

<b>Prelude</b>		Celebration Orchestra
