

The Worship of God
Sunday, September 12, 2021

What is faith...? Faith is the confidence that in a small and insignificant mustard seed, we have all we need to overcome any challenge. The power is not in our faith, but in the strength of the seed – even the tiniest of a seed. The miracle is in the wonder-working power of God. As we prepare for worship, “What seeds do you need to be planting and sowing, trusting what God will do?” What is a situation or circumstance you need to release into God’s care trusting in Him for the outcome?
